PROJECTS

Food Munch Website
Link

- Created a responsive restaurant website utilizing HTML, CSS, and Bootstrap. Designed several sections, including banners, menu, offers, delivery, and contact details. Employed Bootstrap components and the grid system to ensure responsiveness across all devices.

Todos Application
Link

- Created a Todo application for managing daily tasks, including the ability to create, update, and delete them. Utilized Local Storage to ensure tasks are preserved across browser sessions. Implemented dynamic DOM updates for a more user-friendly experience.

Wikipedia Search Application
Link

- Developed a Wikipedia search application using JavaScript and the Wikipedia API. Search results are displayed dynamically without reloading the page. I implemented asynchronous API requests and DOM manipulation to enhance user experience.

SKILLS

- **Technical Skills:** Data Structures & Algorithms, Flexbox, Git, HTML, JavaScript, MySQL, Python, SQLite, CSS, Bootstrap
